

General Membership Meeting

With panel discussion on the

GOLDEN RETRIEVER DIET

Sunday, November 15th

4:00 p.m. @ WWCDTC (Ixonía)

The panel will discuss the type of food they feed, from a raw diet to a kibble diet. How often do they feed their dogs? Why have they chosen the foods they feed? How do they control their dog's weight? What type of treats, if any, do they feed? The panel also will address any repetitive health issues they have had which may have been alleviated when the diet was changed. We will not plan to discuss brands of food, as there are many fine diets on the market.

Bring your questions. You may write two or three questions on paper for the panel to address, or you may want to verbally ask these questions. Also, write down the first 5 ingredients of your dog's food.

Plan to enjoy a **Lasagna Dinner** afterwards

Compliments of Badger Golden Retriever Club

Please remember to wear your masks, as well as social distance from each other.
